Sir:

In response to the final Office Action dated February 8, 2006, please enter the enclosed Amendment of Specification and Terminal Disclaimer submitted herewith in the above-identified U.S. patent application.

REMARKS

The Specification is amended to update the information of Applicant's parent priority application. No new matter is deemed to be added.

The Terminal Disclaimer is submitted to overcome the obviousness-type double patenting rejection. The inventors of this divisional application are the same as in the prior parent application.

Claims 21-40 were previously amended to define the invention more clearly over the cited US Patent 6,038,593 to Huckins. The amendments are fully supported in the Specification as
